Professional Experience

Junior Software Developer, Aurora Solutions

10/2021 – present | Islamabad, Pakistan

- Developed new user-facing features using React Native
- Build reusable components and front-end libraries for future use
- Translated designs and wire-frames into high quality code
- Optimized applications for maximum speed
- Modified existing software to correct errors, upgrade interfaces and improve performance
- Wrote applications back-end and integrated with front-end

Junior Full Stack Developer, Zaytrics Pvt Ltd.

07/2021 – 10/2021 | Islamabad, Pakistan

- Modified existing software to correct errors, upgrade interfaces and improve performance
- Optimized applications for maximum speed

Projects

KINFOLK

Developed a React based web application used to integrate various HR functions into a unified system that shares data and outputs reports across the entire platform.

DFS Army

Developed a React based web application which is a research site, lineup optimizer tool, and collaboration platform bundled into one. It's a popular solution for DFS players looking to both prepare for weekly slates and improve their performance in daily fantasy contests.

Aurora Portal, Company's own Product

Developed a React based web application which is used to handle company's ongoing projects and have some HR related features like employee attendance, lunch orders and leave records etc.

REMEMBER

Developed Flutter based mobile application which helps you maintain albums online, store as many photos and videos as you wish to reminisce, and walk down memory lane. The app maintains milestones and memories that are saved in chronological order on the cloud - all easily accessible from any device.

Skills

React JS, Node JS, Javascript/Typescript, HTML, CSS, Redux, AWS, GraphQL, Bootsrtap, Flutter

Courses

React the complete guide, *Pluralsight*

Front-End web UI frameworks and tools - Bootstrap5, *Pluralsight*
